

# Powered Stair-Climbing Hand Trolleys

Let our range of powered stair-climbing hand trolleys lighten your load. They can lift up to 170kg up or down 55 flights of stairs on one charge. Great for furniture, whitegoods, photocopiers, filing cabinets, industrial devices, building supplies, tiles etc

We have three models to choose from with a range of options and accessories.

Atlas

Hercules

Sala

## Uses

- Logistics companies
- Appliance repair and delivery companies
- Builders and tradies
- Commercial organisations.
- Mining companies
- Individual

## Advantages

- it's easier!
- it's safer
- reduces labour costs and workplace accidents
- reduces damage to walls, stairwells and cargo

Many thanks for the stair climber.  
It works fantastic. Me and my back thank you  
heaps.

- Goran Cosic, Tiler, Adelaide.

Noise Level		<70dB		<70dB		<70dB	

### Folding Models "F"

The Atlas and Sala models come in a folding option for easier storage and transportation. These model options will fit in the boot of a medium sized car and can be stored in a cabinet or under a bench.

### Ground Support Models "GST"

The "GST" option on the Atlas and Sala models includes a ground support tool that allows the load to rest on four wheels. Used to wheel the load over distances without putting any strain on the operator. Loads can be left on the trolley and locked in stationary position by applying the brake. It reduces strain on operators and provides a higher level of safety.

### **Extra Large Toe Plate**

For larger and wider items. Replaces original toeplate—it still folds up for storage and transport.

### **Water Bottle Attachment**

A specialty accessory for those needing to move large water cooler bottles. The water bottle attachment provides an easy way to secure up to six bottles to the stair climber at a time.

Fits the Atlas and Sala models only.

### **Gas Bottle Attachment**

A specialty accessory to securely transport gas cylinders. Provides adjustable contoured rests to grip the curves of one or two cylinders. Can also accommodate a single wide cylinder.

Fits the Atlas and Sala models only.

### **Replacement Battery**

Although all our models come with great battery life, sometimes it pays to have a spare on hand for the next 600-750,000 steps. This extra unit fits all Atlas and Sala options, and the Hercules model.
